Career Objective

Motivated Computer Science graduate with a strong foundation in Data Structures, Algorithms, and Data Science, seeking an entry-level role where I can apply my problem-solving, analytical, and technical skills to build impactful real-world solutions while continuously learning and growing.

Education

B.Tech in Computer Science and Engineering

(2022 – 2026)

- Raj Kumar Goel Institute of Technology
- Current CGPA: 8.0

Technical Skills

- **Programming Languages:** C++, Python
- **Development:** HTML, CSS, JavaScript, Django
- **Databases:** MySQL, MongoDB
- **Tools & Platforms:** VS Code, Git, GitHub
- **Soft Skills:** Problem-Solving, Critical Thinking, Adaptability, Teamwork
- **Coursework:** Object-Oriented Programming (OOP), DBMS, Operating Systems, Computer Networks, Cloud Computing

Projects

The Expense Tracker

[GitHub Repository](#) 

Tech Stack: HTML, CSS, JavaScript, Flask, Python, Bootstrap

- Developed an intuitive expense management application enabling users to efficiently track and analyze daily expenses.
- Implemented secure session-based authentication for user login and signup.
- Built features to add, view, and filter expenses by category and date with dynamic rendering using Jinja2
- Deployed the application on Render platform.

E-Commerce Web Application

[GitHub Repository](#) 

Tech Stack: Django, Python, HTML, CSS, JavaScript, SQLite, Bootstrap

- Developed a fully functional e-commerce platform with user authentication and product management.
- Utilized Django's session management and form validation to enhance security.
- Designed mobile-responsive pages using Bootstrap and Django templates for a smooth user experience.

Full-Stack Task Tracker App

[GitHub Repository](#) 

Tech Stack: React (Vite), Django REST Framework, PostgreSQL, Tailwind CSS, Docker

- Architected a full-stack task management system using Django REST Framework and React.
- Implemented advanced features including search, filtering, pagination, and role-based access control.
- Crafted a responsive UI with Tailwind CSS and containerized the application using Docker

Achievements and Certificates

- Completed Coursera Course: Programming in Python 
- Completed NPTEL Course: The Joy of Computing Using Python 
- Solved 350+ DSA problems on LeetCode and GeeksforGeeks
